

DID YOU KNOW?

INTRODUCING **PDM SLIM**

...FIT FOR YOU!

Cyberex is proud to present the newest member of the PDM family – the “PDM Slim”. This compact 100kVA PDM has all the features you expect in a full sized PDM but it’s packed into 24” wide by 38” deep by 78” high cabinet that blends aesthetically and functionally with your other rack-based based equipment.

FEATURES (summarized):

- 50, 100 kVA*
- Transformer: K-20, 150°C rise, 11X inrush, copper, shielded*, class 220, (4) 2.5% FCBN, (2) 2.5% FCAN, 200% neutral
- Input: 480 VAC, 3 phase, 3 wire, 60 Hz*
- Output: 208/120 VAC, 3 phase, 4 wire*
- Operating temperature: 0 to 40°C
- Dimensions: 24” x 38” x 77” (WDH)
- Up to 2 Sq-D 225 amp, 42 circuit panel boards with 225 amp main breaker
- Hinged split dead-front panels
- High resolution LCD metering display
- Branch circuit monitoring (optional)
- ETL listed to UL 60950 and UL 891
- Top or bottom entry/exit
- Casters and leveling feet

* other configurations available as nonstandard

Today's PDMs, as we know them, are impractical in small IT installations because they demand a large footprint and a wide margin of perimeter space. These applications need a PDM that blends comfortably into a lineup of racks. The PDM Slim's slender form factor is ideal for mid-rack or end-of-rack placement.
